KNOW ABOUT OSI

OSI is a professional organization dedicated to advancing the science, education, and clinical practice of osseointegration - the process by which a dental implant integrates with the bone. OSI brings together dental professionals, implantologists, researchers, and academicians across India to promote excellence in the field of implantology through knowledge sharing, innovation, and collaboration.

OSI WORKS FOR?

The Osseointegration Society of India (OSI) works to elevate the field of dental implantology by promoting clinical excellence, supporting research and innovation, educating dental professionals, and building a strong community of implantologists across India. OSI is committed to setting high standards and shaping the future of implant dentistry through its core values of Integration, Innovation, and Invention.
